

Audit requirements

1. All academic staff should now document impact (plans or achievements) as matter of routine
2. All to complete max.200 words on their impact using the **narrative section** of the **impact template in Pure**. Many will have done this for grant applications – copy & paste
3. This could either be a summary of impact **achieved from Jan 2014 onwards** or a short description of the **potential impact up to 2019**
4. For REF eligibility - based on own research, some or all conducted at Strathclyde. Joint across UoAs/other HEIs is OK
5. So where applicable, link to publications and funding in Pure
6. Anyone who has continued impact from a REF case study – start a new one from 2014. Can use same underpinning research again (back to 1999? 15 yrs. prior to 2014)

All impact should be recorded in Pure

- Generic template for impact in PURE (not the REF template)
- Impact – General stays in Pure; External Portal – internet
- Collect any **actual achievements** or **future plans** based on own or joint research
- Important to link the impact to published research within the template. Can also associate funding and activities.

Max 200 word summary in Pure - covering

Research

What are the key insights from your work?

[Make sure some is published]

Engagement/ dissemination

How did your research come to attention of users/ the public?

[Collect evidence]

Early stages of use

Keep track of this; even if someone else uses/exploits the research – you can claim the impact

Dates!

Final Impacts

What could be/is the target population (reach)?

Collect information on how much changed

Dates!

This does not have to be in chronological order. Publications can follow the impact
