

MEDICAL RESEARCH SCOTLAND SUPPORTING THE NEXT GENERATION

Applications are now invited from Scottish Universities, in conjunction with trading companies involved in medically-relevant life sciences research, for the

MEDICAL RESEARCH SCOTLAND PhD STUDENTSHIP AWARDS 2018

- Up to 15, fully-funded 4-year PhD studentships, tenable from autumn 2018
- Including stipend, UK/EU fees & contributions to laboratory & travel expenses
- To be delivered in a Scottish University/Recognised Research Institution

The aim of these awards is to enhance the careers of scientists at an early stage of their career in health-related research in any of the biomedical, physical, clinical, engineering and mathematical sciences. Complementing the universities' own postgraduate programmes, the Medical Research Scotland PhD Studentships incorporate the additional commercial training needed to develop careers in an increasingly difficult and competitive market, while also helping to strengthen the country's internationally-renowned biomedical research base.

Applications Close: NOON on 11 July 2017

[Applications must be made by a Scottish University/Recognised Research Institution and not by intending students]

Medical Research Scotland is an established Scottish charity which funds biomedical research in Scotland, with the long-term aim of improving the understanding, diagnosis or treatment of all and any human disease. It does this by providing support to scientists at critical stages in the development of research careers.

Further details, including application processes, requirements and the terms and conditions of awards, see:
