

2019 / L'Oréal-UNESCO UK & Ireland For Women in Science Fellowships

You could be awarded £15,000*
towards research in Physical Science.

APPLY NOW

The L'ORÉAL-UNESCO UK & Ireland For Women in Science Programme

celebrates, enhances and enables the contribution of women to scientific research.

Since 2007, we have awarded 52 female post-doctoral researchers in the UK & Ireland grants to advance their careers and facilitate world class research.

*We're now seeking five exceptional female scientists
looking to advance their research.*

The fellowship awards research in the fields of life and physical sciences, engineering, mathematics and computer sciences. Candidates must have completed their PhD and have started in their postdoctoral research position by the application deadline. Applicants must have a confirmed contract with a University or Research institute within the UK and Ireland for the entire 12-month period of the fellowship. All citizens' can apply but must be residing within the UK or Ireland at the time of application.

Please visit our website for full terms and conditions.
/ Applications close February 1, 2019
