

All classes that have a PEGASUS class code will remain in the state that they are on the current (and what will be the "19/20") instance of Myplace.

Near the start of August (typically the 2nd Tuesday), we shall swap the 20/21 instance of Myplace so that is accessible via the URL <http://classes.myplace.strath.ac.uk/>

The 19/20 classes will remain available on a slightly different url: <https://classes2019-2020.myplace.strath.ac.uk/> and all of the classes that students undertook remain accessible via the 19/20 tab on their Myplace home page.

These sites are then left alone (from our perspective) from then on.

There are different behaviours for Physics classes (that are *not* PEGASUS class code sites) that have set either an Archive or Move rollover action.
