

# The PDA Task Master Challenges

Create two images (or 15s video) that are suitable\* for our Instagram account

1. Image or video explaining a physics concept or law that no other PDA family will have chosen
2. Photograph or video showing this Strathclyde science pen the furthest distance away from the John Anderson

Academic Integrity applies – cite sources, don't plagiarise, collaboration with others or with AI should be acknowledged, but don't Photoshop your pen image. Your pen wants to travel!

Stay Safe – this is only a bit of fun and no risks beyond standard university work should be undertaken.

Bonus: PDA families who submit suitable images by 14<sup>th</sup> February 2024 will be awarded a max of 10 extra points at the PDA Task Master Extravaganza on Wednesday 21<sup>st</sup> Feb.

How to submit your images: Images should be labelled with your PDAs name and forwarded with a consent statement to [Physics-director-student-support@strath.ac.uk](mailto:Physics-director-student-support@strath.ac.uk)

\* Suitable images/videos for our Insta account means ones with a [U Universal rating](#)! They don't contain dangerous, unsafe or antisocial behaviour, discrimination or discriminatory language, drugs, bad language, nudity, sex, threat, horror violence. Oh and the physics must be correct!

Consent: You (and therefore we) must have the permission of anyone featured in the photographs for their image to be shown via social media.
