Celebrate World Laboratory Day: Apply for a LEAF Award

23 April is World Laboratory Day

As part of celebrating World Laboratory Day, we're also highlighting **LEAF (Laboratory Efficiency Assessment Framework)** — a programme that helps labs become more sustainable while keeping research standards high. It was created by UCL and has been making a difference in labs across the UK.

Strathclyde runs **LEAF Awards** to recognise the efforts of our labs. Last year, 19 labs received awards — one Gold and 18 Bronze. If your lab is taking part this year, why not aim for the next level?

[Join LEAF now.](#)

More information in [S-Labs SharePoint Hub](#)

Submission deadlines:

- **Bronze and Silver:** 2 June
- **Gold:** 1 July

Looking for funding support?

Our **Sustainable Labs 50% Incentive Fund** is still available! It's a great way to help cover the costs of making your lab more efficient. You can find more info and apply on our [S-Labs SharePoint Hub](#) and the [online application form](#).
