

## **PRES Survey - Have YOUR Say!**

### ***What's PRES?***

The Postgraduate Research Experience Survey is an unmissable opportunity to ensure that your voice is heard when directing the future of postgraduate research.

Taken every two years, the survey is vital in influencing the opportunities and experiences for all postgraduate students across the UK.

The survey will also directly inform the experiences afforded to postgraduate students right here at Strathclyde, so don't miss out!

### ***What's in it for me?***

Loads! Below are just some of the ways the PRES survey can benefit you and your peers:

- The PRES survey is your biggest chance to make an impact on the postgraduate research landscape, at a University and National level. Results from this survey influence policy and decision making across the research community.
- It provides an excellent opportunity to critically reflect on your time as a postgraduate, and can help hone your plans for the future - and shape what that future might look like!

- You'll be in with the chance of **winning a whopping £500** towards your research, especially for Strathclyde postgrads!

***Sounds great! How do I get involved?***

Glad you asked! Every postgraduate research student at Strathclyde has received an email from the Student Surveys team with your very own personal link to completing the survey.

Didn't notice it come in? No worries! Just scroll back in your emails - you'll have received an email on:

- 15 April
- 9 April
- 3 April

You'll also be receiving one on Thursday 23 April!

***Stand up and make your voice heard with the PRES Survey 2015***  
***- shaping the future of postgraduate research!***
