

DSMS 2020

Doctoral School Multidisciplinary Symposium

Monday, 27th April 2020

Technology & Innovation Centre

CALL FOR ABSTRACTS

ABOUT THE SYMPOSIUM

- The DSMS is a **one-day conference** that aims to gather all doctoral students from the University of Strathclyde across departments and faculties in order to give them the opportunity to **showcase their personal research areas**.
- Talks by the students will be supplemented by three **keynote speaker sessions** with ties to the themes of the conference.
- There will be an extensive **Careers Fair** hosting numerous company representatives - a chance to learn about new opportunities and to network with the industry.
- We will also be hosting the final for the **3-Minute-Thesis** competition.

All doctoral students are encouraged to attend and submit abstracts for oral and poster presentations based upon the symposium main themes.

SESSION THEMES

- **Enabling a more prosperous and sustainable society**
- **Driving technology and creating future solutions**
- **Empowering connectivity and increasing global awareness**

These themes have been developed to reflect the United Nations Sustainable Development Goals and the university's mission to contribute to a world "better educated, prosperous, healthy, fair and secure". As a result they encompass all PhD research in the University. More information on the Session Themes and submission guidelines can be found on the event website [here](#).

IMPORTANT DATES

- **Abstract submission deadline:** 24 January 2020
- **Notification of acceptance:** 17 February 2020
- **Registration for attendance:** 3 April 2020
