

Ultra-wide bandgap oxides (UWO) meeting 2023

<https://iop.eventsair.com/uwo2023/>

5 June 2023

University of Bristol, Bristol, UK
Enderby Lecture Theatre, HH Wills Physics Lab

- Join us for the first UK meeting entirely dedicated to Gallium Oxide (Ga_2O_3) materials and devices
- Explore new advances to the field, from fundamental science, to growth and characterization, to device study and future applications
- Researchers from both academia and industry are invited to participate in this one-day meeting

Confirmed invited speaker:

Oliver Bierwagen (Paul-Drude-Institut, Berlin):

" Ga_2O_3 - an overview"

Now accepting submissions for
oral and poster presentations at
